Fees listed on this brochure and our web site are only a general guide,
since patients consult for a wide range of treatments.

Treatments for Dilated Veins

We treat enlarged, unsightly veins on legs, arms, hands, face, etc., using the most effective methods. For instance, with "Sclerotherapy" we use our proprietary, non-allergenic solutions that do not cause any pain or discomfort. For smaller "spider" or "cluster" veins, we provide a combination of sclerotherapy treatments, for the best possible results. Large veins could be treated with the use of minimal, painless surgery, using special techniques. These treatments are provided at our office to those patients who would benefit from them, avoiding costly hospitalizations.

**For Sclerotherapy, our fees are \$280 - \$380 per treatment.
For microsurgery, our fees are \$380 - \$680 per treatment.**

Treatments For Wrinkles, Age Spots and Acne Scars

Our physicians successfully treat facial and neck wrinkles, brown spots and other skin blemishes using Microdermabrasion, which gently removes the skin's outer layers with micro crystals. These treatments are quick and painless and their results are markedly enhanced by the use of specially formulated medications.

**For Wrinkles, Age Spots and Acne Scars Treatments,
our fees are \$160 - \$640 per treatment.**

Treatments for Skin Stretch Marks

Our treatments for skin stretch marks are based on several new medical technologies and devices, including specialized lasers. Depending on the type and age of stretch marks, our physicians apply the treatments that will produce the best results. Based on an initial assessment, two or more different types of treatments would be used.

**Our fees are \$240 - \$460 per treatment,
For Skin Stretch Marks**

Facial Rejuvenation And Toning

Based on highly specialized laser treatments, combined with Microdermabrasion and other skin treatments and reduction of swelling from lower eyelid tissues. At least three to five treatments are required over a period of six to twelve months to appreciate significant changes that will make you look years younger... without any surgery. For women as well as for men.

**Our fees are \$260 - \$380 per treatment,
For Facial Rejuvenation and Toning.**

Micro-Lipoinjections and AutoCollagen™

These specialized treatments are used to minimize the effects of time on facial tissues, softening or eliminating wrinkles, scars, etc. Also, they are very effective for lip enhancement when fuller lips are desired.

For Micro-Lipoinjections: \$460 - \$980.

For AutoCollagen™: \$680 - \$980.

Skin Microsurgery, Scar Revisions and Mole Removal

We use a combination of treatments to minimize scars resulting from cuts, accidents, acne, etc. Microsurgery, Microdermabrasion, laser applications, injections, etc., are methods used at our practice to obtain satisfactory results. Moles are usually removed by laser applications and also by microsurgery, using local anesthesia.

**For Skin Microsurgery, Scar Revisions and Mole Removal,
Our Fees Start At \$480.**

Tattoo Removal

Treatments for several types of tattoos, by using lasers and other techniques, including microsurgery. Six to ten or more treatments are required to obtain satisfactory results.

For Tattoo Removal, Our Fees start at \$280 per session.

Ear Piercing and Ear Lobe Repairs

We use specialized microsurgical treatments to remove ear lobe tears and scars. We also provide medical ear piercing.

For Ear Piercing, Our Fees are: \$85 - \$160.

For Ear Lobe Repairs, Our Fees are: \$380 - \$680
